

How Voting Works

A simple guide for students

Who can vote

Every student is eligible to vote in the election for their class or position, as long as they are currently enrolled and in good standing. Some positions are only open to students in specific classes — check the election page to see if a position applies to you.

How to vote

- Log in to the student portal during the voting period.
- Go to the Elections page and find the position you're eligible for.
- Read each candidate's short profile or manifesto.
- Select one candidate and confirm your vote.

You can only vote once per position, and you cannot change your vote after submitting it.

A few simple rules

- Vote for yourself — never share your login or vote on someone else's behalf.
- Keep campaigning respectful. No posters or comments that put down other candidates.
- If something doesn't seem right (a technical issue, a rule being broken), tell a teacher or the student affairs office.

When you'll see results

Results are announced after voting closes for each position. You'll find them posted on the school notice board and on the Elections page of the student portal.

Questions? Speak to your class teacher or the student affairs office.
